

Aluminium Light Crane System

Different profiles - One trolley
6 profile sizes for loads up to 2,000kg with one trolley design

Rigid & lightweight construction

Low deadweight with high rigidity due to double walled profile design hollow chambers.

Easy capacity expansion

Reinforcement profile for increasing capacity

Single girder crane

Double girder crane

Telescopic crane

Closed Loop Systeme

Jib Crane

eepos Base

Safe and clean solution for your energy, data and more.

Industrial sockets (3-phase, 1-phase)
Compressed air coupling in various sizes
Ethernet, Oil, Gas, Water, Coolant, etc.

eepos move

The innovative modular system for aluminium lifting axis

Pick and place application
Manipulator application
Nut-runner application
Precise positioning
Material handling automation

"The Power of Precision."
